EXPERIENCE

Apple | Reno, NV

Technical Specialist– (August 2026 – Present)

- Diagnose and resolve hardware, software, iCloud, and ecosystem-related issues across Apple products, balancing technical depth with a high-volume workflow of 4 appointments per hour.
- Troubleshoot complex technical issues alongside fellow technicians, identifying root causes and determining effective repair, software, or service solutions.
- Identify recurring technical and repair issues, collaborate with team leadership and surface customer feedback to help improve service quality and resolution efficiency.
- Partnered with peers across the market to share best practices, troubleshoot challenges, and implement solutions to drive measurable gains in **NPS, queued sessions per hours, and Business Revenue**.

Apple | Reno, NV

Pro– (April 2025 – August 2026)

- Guided customers in navigating Apple's ecosystem of products and services, gathering feedback that improved customer experience helping me achieve a **100 individual Net Promoter Score** and contribute to an increase in our store's Net Promoter Score (NPS) from 83 to 87.
- Collaborated with cross-functional product and business teams to analyze workflows, identify requirements, and implement process improvements that supported key performance metrics, greatly contributing to our store's **#1 market ranking.**
- Partnered with peers across the market to share best practices, troubleshoot challenges, and implement solutions to drive measurable gains in **NPS, Timely Assistance, and Business Revenue**.

PROJECTS

iOS Development | GEMMA – (April 2025)
Award Winning iOS App I developed for university's annual hackathon

- Oversaw the full development cycle for an AI-powered mock interview iOS app using Swift and Firebase, enabling dynamic voice-based interviews with real-time feedback, helping users improve communication skills.
- Applied concurrency techniques to streamline voice input/output workflows, enhancing performance and responsiveness.
- Collaborated with colleagues in code reviews to improve UI responsiveness and maintainability.
- Developed a robust backend with Firebase, incorporating Firestore for real-time data management.

Personal Project (Swift Development) | Jess – (In Progress)

- Designed and implemented a custom interpreted programming language in Swift, building the full pipeline: lexical analysis, recursive-descent parsing, AST construction, tree-walk interpretation.
- Implemented operator precedence parsing, runtime error handling, and dynamic type validation
- Developed modular compiler components (Scanner, Parser, Interpreter) with XCTest-based unit testing.
- Applied compiler design principles in Swift to better understand how modern toolchains like Xcode and Swift generate compile-time diagnostics.

Personal Project | Swift is my Life - (In Progress)

Andre' Jones

Cell: 702.406.4925 | Email: andreamj2001@gmail.com | GitHub | LinkedIn

- Built and maintain a repository documenting my Swift learning journey, covering Swift fundamentals, SwiftUI, Swift Concurrency, etc.
- Encouraged retail teammates to follow and contribute, fostering collaboration and creating a shared resource for learning Swift fundamentals.
- Shared examples, explanations, and sample code to support both personal growth and peer learning.

EDUCATION

University of Nevada, Reno | College of Business, Reno, Nevada | 2024
MAJOR: Bachelor of Business Information Systems

Scuola Di Amministrazione, Italy | Torino, Italy | Fall 2023
FOCUS: Information Systems

SKILLS

- **PROGRAMMING LANGUAGES:**
  - Swift | C++ | Python
- **TECHNOLOGIES & FRAMEWORKS:**
  - iOS/macOS/iPadOS | AVFoundation | Compilers | Xcode | Git/GitHub | OOP (Object Oriented Programming) | Metal (Metal Shader Language)
- **SOFT SKILLS:**
  - Problem Solving | Collaboration | Detail Oriented | Nimble Learner | Situational Adaptability | Drives Results

AWARDS & ACCOLADES

- University of Nevada, Reno's ACM's Biggest Little Hackathon Winner (Best Completed Project 25')
- University of Nevada, Reno's Black Student Organization Historian/Membership Coordinator (21' – 24')
